plant and held several other jobs.

"Learn To Get Along"

When asked for the formula of such a long marriage, Mr. and Mrs. Hand readily answered — "go to church often and just learn to get along."

Hand said he and his wife, Lillie Mae, have few disputes — mainly when he wants to go to a baseball game. "I haven't seen many in the last few years, only three or four Cardinal games last year." However, he is planning to see a few more this year.

He recalled that he and his wife met at a "kissin' party" and went together for a year before being married.

The elderly man, who likes to fish, has just visited a doctor in 47 years. Mrs. Hand, whose favorite hobby is cooking, has been ill the past few weeks and been unable to cook.

80 Descendants

The Hands have nine children, 24 grandchildren, 39 great-grandchildren and eight great-great-grandchildren. One son is deceased.

Their sons and daughters are Roy Conrad of Eldor, Ill.; Mrs. Muri Isley of Charleston, Ill.; Paul E. Hand of New London, Conn.; Mrs. Junitta Calvergar of Litchfield; Henry Hand of Venice and Mrs. Ellen Luther, Harry Hand, Mrs. Leona Greer and John Hand of Granite City.

"We'll stay together until the good Lord takes us," she commented about her marriage.

try provides a firm economic base. We have great economic and employment stability, but for even a greater potentiality, we must turn to education.

Dr. See said with the universities in St. Louis and the second campus of SIU to be located here, this problem should be solved. He suggested as a step toward further progress "bi-state planning, bi-community planning, bi-county planning with youthful, dynamic leadership available."

**The Area On The Future**

This area is the area of the future. I'm impressed with the strides made in the past few years... and yet we've hardly scratched the surface. It's urgent we must use leadership to move ahead for well-planned and orderly development.

He predicted that with the geographic location, the improved labor-management relations, and the fact that "nothing can stop us from going way ahead of the rest of the country."

The educator presented 12 "areas" which need to be reappraised to provide the goal of 12-Step Reappraisal.

**Land use study and master planning.** These must be interrelated beyond city and county basis to the entire area, extending perhaps to a radius of 100 miles.

**Equity of tax responsibility.** An equitable tax base is needed to attract new industry and keep the present ones. Support of public service is a responsibility of industry, but it also can stifle industry.

**Labor-management relations.** Much progress has been made here. Wage scales and working conditions should be eliminated and attitudes and skill of labor improved.

**Diversification of industry.** The area is fortunate to have diversification, but care is needed and it should be determined that new industries fit into the pattern.

**Improvement of governmental structure.** Coordination is needed. Outmoded governmental agencies should be eliminated and there is a necessity to replace city, county and township governments with a unitary form of government, such as the borough system of New York.

**Bi-State coordination.** A more realistic view is needed to strengthen the bi-state development of the area. Cooperation and coordination of the Bi-State Agency, Bi-State Pilot group and other agencies should be developed.

**Education.** The standard of living is related to education. There is a need to consolidate local schools and support higher education.

**Leadership development.** Industries in the area are headed by young men and their abilities should be capitalized on and developed to develop more leaders.

**Recreational facilities.** With a growing population, more facilities, such as the proposed Horseshoe Lake state park are needed. Cultural development, more are needed in the area, although there are four Community Concert groups and programs available in St. Louis.

**Residential development.** The tendency has been for industrial leaders to live in Missouri. A change in this pattern is needed. Airport development. More needed to add to the total pattern.

tern of transportation facilities. "We are dynamically blessed with young leadership, excellence of schools, abundance of skilled workers, diversification of industry, potentiality of markets, good planning in communities. We can plan to become the biggest industrial center in the Midwest, or even the nation," Dr. See concluded.

**90 Attend Banquet**

The banquet was held at St. Peter Evangelical & Reformed Church with about 80 persons in attendance. Harold C. Fischer, co-chairman of the Chamber of Commerce Industrial Development committee with W. F. Hoelcher, president, and the address of welcome was given by Samuel W. Meyer, C. of C. president.

Members of the advisory board present were Hoelcher, Scherer, Carl Carter, Roy K. Dallas, John H. Glenn, Lewis D. Yaeger and William T. Levenez.

Prior to the evening's banquet, the state board toured the area by bus Thursday morning and then met in a regular session at the Granite City Steel Co. office building.

Starting at 4 p.m. Hoelcher presided over a series of five-minute talks designed to present the Tri-States Climate for Industrial Development.

The speakers and their topics were: Dr. See, "The Climate for Industrial Development"; Dr. Harold Kaiser, superintendent of schools, educational climate; G. W. Hoelcher, executive vice secretary of the East Side Manufacturers Association, industrial climate; Hurley Fretwell of the Illinois Employees Service, labor supply; John R. Hundeyr, director of industrial relations and personnel at Granite City Steel, labor and management relations; W. J. Edmonds, director of traffic, Granite City Steel, transportation; C. E. Townsend, member of the Bi-State Agency and editor/publisher of the Granite City Press-Record, Bi-State; John Barron, general manager of the Tri-County Regional Port District, the Port Authority; Arthur Laur, secretary and treasurer of Merchants Mortgage Co., banking; and E. G. Schmitt, service area manager of Illinois Power Co., utilities.

During the advisory board meeting here, announcement was made that the elimination of Section 3 of the Atlas of Illinois Resources, a 10-volume work by a unitary government will offer an advance to Illinois' physical and natural advantages. Section 3 describes the forest, wildlife and recreation resources of the state. Two previous sections inventory the water resources and climate of the state and the mineral resources were published last year.

Others will deal with transportation, population, labor supply and educational facilities, agriculture, markets, public utilities, manufacturing structure and industrial potential.

**Stop Sign Charge**

George Papamarkoff, 26, of 2850 Madison avenue was arrested at 4 p.m. Friday by Madison police for passing a stop sign at Sixth street and Alton avenue. He posted his driver's license as bond and is to appear for a hearing Friday.

**WEEKLY NEWS LETTER**

My opponent's campaign up to this time reminds me of the advice given to young lawyers by a well known Supreme Court Judge. When arguing a case, if the facts are in your favor and the law against you, pound on the table and talk about the facts. If the facts are against you and the law in your favor, you pound on the table and talk about the law; if the law and the facts are both against you, you pound on the table.

Mr. Schuman, although given ample opportunity, has never answered these questions:

1. Why does the City Court have such a back log of cases waiting to be tried?
2. When will you keep the promise you made to some local attorneys to resign your Levee Board job?
3. Is it fair to the taxpayer to give them only a small fraction of your time for the compensation you receive from tax monies?
4. Why is the Levee Board machine so interested in securing your re-election as City Judge?
5. Why did you represent Granite City Steel in a law suit attacking the Levee Board Tax Levy at the same time that you were on the Levee Board's payroll as their attorney?
6. Does your record as State's Attorney of Madison County qualify you to be City Judge?

In closing, we want to thank the many people who have unselfishly aided us in our campaign to bring integrity to our City Court. We will, if elected, give them and all the citizens of Granite City the service and undivided attention to which they are entitled.

# Canvass Shows No Changes; 37,783 Ballots In County

Litigation still remains a possibility, but the five Democratic levee district nominees as determined by the unofficial count April 13 remained in the lead as official election canvasses were completed Friday.

The primary winners were the four incumbents, Dan E. Coslet, Lawrence T. Tolan, George Duff and John E. Molla, and one member of a rival slate, Thomas F. "Skip" Hennessy, all reside in St. Clair county.

The official count shows Duff with 17,178 (5124 Madison county and 12,054 St. Clair), Coslet 16,988 (4863 and 12,125), Hennessy 16,986 (4952 and 12,044), Molla 16,988 (4917 and 12,071) and Tolan 16,901 (4807 and 12,094).

Listing out were Ernest E. Zili of Granite City, who ran with the incumbents and totaled 16,663 (4614 and 11,049), Thomas "Tom" McGee of Venice 16,543 (5112 and 11,431), Michael "Matt" Sewczyk 15,912 (4220 and 11,693), John "Jack" Kerins 15,737 (4206 and 11,531), Mon-Finn 15,577 (4580 and 10,997) and James Sweeney 2137 (1450 Madison and 687 St. Clair).

**ELI Defeated By 285**

Comparison of the official totals shows Eli 238 votes short of Tolan. Eli led Tolan by 807 votes in Madison county but trailed him by 1045 in St. Clair.

The incumbents and Eli were supported by the political machine of East St. Louis Mayor Alvin G. Fields as well as the Madison and Venice Democratic organizations, while the opposite slate was backed by the St. Clair county political organization headed by Francis Touchette.

With Hennessy the only one of the Touchette group elected, the closest member of the slate, McGee, trailed Tolan by 358 on a 305 victory in Madison county and a 663 loss in St. Clair.

Madison Wins 14,228-13,992

Madison county Democratic primary contests ended in a 1317-vote victory for Circuit Clerk Simon Kellermann, Jr. over Willard F. Portell, 14,514 to 10,777; and 1836-vote win for State's Attorney Dek H. Mudge Jr. over Anthony W. Daly, 14,228 to 12,992; and a 1725-vote win for Coroner W. B. Billings over Ben F. Staten, 13,829 to 12,104.

In the only county Republican race, Clarence M. Armstrong defeated John Jay Dick by 564 votes, 5787 to 5223, for the recorder of deeds nomination.

Total vote was 37,783. County Clerk Eulalia Hotz announced Friday morning after the canvass board had completed its work. This included 29,033 Democratic ballots and 8750 Republican ballots.

1. Why does the City Court have such a back log of cases waiting to be tried?
2. When will you keep the promise you made to some local attorneys to resign your Levee Board job?
3. Is it fair to the taxpayer to give them only a small fraction of your time for the compensation you receive from tax monies?
4. Why is the Levee Board machine so interested in securing your re-election as City Judge?
5. Why did you represent Granite City Steel in a law suit attacking the Levee Board Tax Levy at the same time that you were on the Levee Board's payroll as their attorney?
6. Does your record as State's Attorney of Madison County qualify you to be City Judge?

In closing, we want to thank the many people who have unselfishly aided us in our campaign to bring integrity to our City Court. We will, if elected, give them and all the citizens of Granite City the service and undivided attention to which they are entitled.

If the facts are against you and the law in your favor, you pound on the table and talk about the law; if the law and the facts are both against you, you pound on the table.

# Firm, Union Leaders Conferring Over Picket

A conference between union business representatives and officials of H. Sternberg & Co., local contracting firm, was begun this morning concerning a picket from Venice Local 528 who began walking in front of the firm's office, 1609 Delmar avenue, about 7 a.m. today.

A spokesman for the Southern Illinois Builders Association said the firm and teamsters had been deadlocked in a recent grievance hearing at Springfield over the procedure in rehiring men who had been laid off. Sternberg had requested the matter be referred to arbitration, and the union refused, according to the SIBA officer. Officials of the Teamsters Local could not be reached for comment.

No other local firms are being picketed.

**Vandals Break Window**

Mrs. Carl Ranft, 2850 Delmar avenue, reported to Granite City police Saturday afternoon that vandals had hurled a rock through a bedroom window at the Ranft home. A small rock was found on the floor.

William Schroder, 46, of 1605 Maple street, reported to Granite City police that as he was driving north in the 1900 block of Edison avenue Friday morning, he "bumped" into the rear of a car which had stopped suddenly in front of him. He reported that damage was slight. The name of the other motorist was not listed on the report.

The latest listing, showing 3% taxes of \$154,490 sent to the state, reflects \$106,032 forwarded by 481 Granite City stores, \$30,908 by 160 Madison firms, \$6310 by 84 Venice businesses and \$1252 by 11 Mitchell establishments.

The half per cent for cities, collected in incorporated areas, and the half cent for counties, not listed on the report.

The rates combined here in the way that they affect the majority of people in the four local areas. For persons in different governmental groupings, the rates will vary accordingly.

Long Lake fire district residents should add .084 (an increase of .008 from last year) to the other rates in Nameoki township to determine their total rate. Those in the Miracle-Midwestern Place street lighting district should add .10 (up .032 from last year).

Nameoki township residents in the Madison school district should substitute that rate for the Granite City school district rate. Those in the city of Madison should add the city tax rate.

Venice township residents in the Granite City school district should use that district's rate. In cases, the exact rate can be found by adding the rates of the governmental areas in which each taxpayer resides.

The procedure outlined is merely to enable property owners to determine their new combined tax rate immediately, if they wish to do so; the figures will be supplied to them with their tax bills this year.

Mattingly officiated and the wedding breakfast for the family took place afterward at the Polish Hall in Madison. Approximately 650 guests attended a reception there at 6 p.m.

The bride is a daughter of Mr. and Mrs. Joseph A. Troecckler, 532 East Chain of Rocks road, St. Louis. The groom is a son of Mr. and Mrs. Adam Zabotka, 1020 Greenwood street, Madison.

Arrangements of greenery and altar bouquets of white gladioli and chrysanthemums decorated the church sanctuary, and a program of wedding music was furnished by Mrs. Eleanor Tutka, vocalist, and Mrs. Mae Hawke, organist.

The bridal gown was made of schiffli embroidered tulle over taffeta. It featured a sweetheart neckline, a slim bodice and wrist-length sleeves. The very bouffant skirt worn over hoops, was scalloped at the hemline, falling gracefully over a wide tulle flounce. A veil of imported silk illusion was secured to a cap of lace and the bride carried a cascade of lilies of the valley and white orchids.

Mrs. Adele Wasylak, a sister of the bridegroom, was matron of honor, serving with three bridesmaids, Mrs. Kathryn Kuhlmeier, and Mrs. Eleanor Vrabec, sisters of the bride and groom, and Miss Helen Swagile.

Harry Wasylak was best man and groomsmen included Joseph Kuhlmeier, Frank Vrabec, and John Kula. The guests were seated by Frank Troecckler and Vincent Zabotka, brothers of the bride and groom.

The bride's attendants were identically gowned in white nylon velvety with tangerine flowers and matching taffeta trim. The fitted bodices had basen necklines cut deep in the back and tiny cap sleeves. The circular skirts were extended with crinoline and accented by large taffeta bows. Bands to match were worn in their hair and they carried wicker plateau baskets from which cascaded English ivy and snowdrift pom poms.

Mrs. Troecckler was attired in a light blue linen sheath dress, a light blue straw hat and black patent accessories. The bridegroom's mother chose a beige linen sheath dress with a beige

flower girl. The latter wore a floor-length white organza frock, made like the gowns of the older attendants. She carried a miniature crescent of white and blue pom poms.

## Miss Arlene Nemeth Becomes Bride Of Walter R. Slaby

The wedding of Miss Arlene Nemeth, a daughter of Mr. and Mrs. William Nemeth, 2105 East 19th street, and Walter R. Slaby, whose parents are Mr. and Mrs. Walter C. Slaby, 1221 Meridian street, took place Saturday morning at St. Joseph's Catholic Church.

Rev. John Sohm performed the ceremony at 9 o'clock before the altar decorated with bouquets of white flowers.

Mrs. Cleta Judd presided at the organ and accompanied the soloist, Francis Judd, as he sang "Ave Maria" and "On This Day O Beautiful Mother."

The bride chose for her wedding a gown of white Chantilly lace styled with a sash and neck line with iridescent sequins and pearls on the hand-clipped collar. The traditional type with pointed at the wrists and the fitted bodice, fastened down the back, was accented with large full blown roses. ## Peaceful Use Of Atomic Energy In Illinois Fostered By Power Company

Illinois Power Co., this area's electric and gas utility, shares the credit with seven other firms for financing research and development that has led to opening of an atomic-powered electricity plant near Morris, Ill. It houses the largest nuclear power reactor in service in the United States and is the first full-scale, privately-financed nuclear power plant in the world.

The first chain reaction was achieved at the plant in October and power from the atom already has been supplied to customers of the Commonwealth Edison firm, in helping plan a facility utilizing steam generated by a nuclear reactor, engineers of Illinois Power and the other participating companies have gained knowledge that is expected to be helpful in future power plant construction.

Whether atomic energy will eventually provide all electric power is hard to say, but the potentiality of the atom is great, particularly in view of the diminishing supply of power-producing natural resources. Illinois Power is to be congratulated for helping bring peaceful use of atomic energy to Illinois.

## More Than One Way To Meet "Drastic" School Needs Outlined By Government

Goals just outlined by the United States Office of Education for the next few years are "admittedly drastic."

Proposals contained in a study prepared by the Office of Education include constructing 607,800 new classrooms in the next decade at an expenditure of \$25,500,000,000, and raising the average annual pay of teachers by 50% by the 1963-64 school year, from \$4959 to \$7439, followed by annual 3% raises. (On the basis of a 9 months school year, present teachers' salaries averaging \$551 per month would go to \$826).

The report cites a "fearful urgency" to overcome classroom and teacher shortages due to the technological race with Russia. It says that to attract enough competent teachers, salaries must be "competitive with those in other occupations requiring equivalent training and experience."

While the goals may be praiseworthy and even essential, there could be more than one path toward accomplishing them. With widespread adoption of year-round school, in which student vacations would vary among the four seasons, teacher pay could automatically be boosted to a nationwide average of \$6612 a year, even at the present \$551 monthly rate. This compares with a \$4959 average now, and it would be equivalent to a 33% increase in income. At the same time, 500,000 additional classrooms could be provided at the cost of air-conditioning existing school buildings in those climate zones having hot summers. The estimated 10-year classroom need would thus be quickly reduced from 607,800 to 107,000.

Tax-weary property owners have a right to urge efficiency in government. When this can be accomplished while simultaneously meeting all needs, the proposal merits serious consideration.

Still more funds for teacher pay and classroom construction might well be necessary, but the task confronting educators and parents would no longer be a

### THIS IS MR. SCHUMAN'S EXPERIENCE AND RECORD ON WHICH HE SEEKS YOUR VOTE

Following are word by word quotes from the St. Louis Post-Dispatch and Press-Record on the dates indicated during Mr. Schuman's tenure as State's Attorney, shortly before he became Judge of the City Court.

St. Louis Post-Dispatch—Nov. 11, 1955—

"Gambling exists only where somebody is paid off for protection, Governor William G. Stratton declared yesterday in a sharp rebuke to law enforcement officials in Madison County."

St. Louis Post-Dispatch—Nov. 15, 1955—

"Charges by Governor William G. Stratton that gamblers pay off officials in Madison County to keep operating were termed 'ridiculous' today by State's Attorney, Fred P. Schuman of Madison County. In a statement last week following gambling raids by State Police, the Governor was particularly critical of Madison County, which he said was notorious for its open gambling. Schuman today said, 'This County now is as clean as it has ever been.'"

Granite City Press-Record, Editorial—Feb. 9, 1956—

"It is likely that friends of Workman and the Prevue will try to put pressure on the liquor commission to renew the licenses, arguing that charges against the licensee were dismissed on the State's Attorney's (Fred P. Schuman) recommendation, and pointing out that no direct connection between gambling operations and the night club was proved."

Granite City Press-Record, Editorial—Feb. 20, 1956—

"The Club (Prevue) has been issued a brand new liquor license, although a citizens' group is considering appealing the action. In the past there has been some indication of 'back passing' but there can be little argument that the responsibility for renewing the license and permitting the Club to operate rests with some where among Liquor Commissioner Haller — Sheriff Ogle and State's Attorney Schuman. The Commissioners consider all liquor licenses, the Sheriff is supposed to enforce the law and the State's Attorney handles prosecution."

St. Louis Post-Dispatch, October 23, 1956—

"If the State's Attorney and Sheriff won't act in these cases, Mudge said, I will as a private citizen. Mudge has said that Sheriff Kenneth T. Ogle and State's Attorney, Fred P. Schuman, are permitting the 'joins to run to build up a war chest to defeat me at the coming election.'"

"drastic" situation. By accommodating one-third more pupils in existing facilities, the staggered-vacation plan could end or greatly reduce the building and teacher shortages for years to come while serving the needs of both students and teachers.

## Information Agency Making Gains In Piercing Iron Curtain With Truth

Encouraging progress is reported by the United States Information Agency in its efforts to pierce the Iron Curtain with a more accurate picture of America than is provided by the controlled Communist communications media. This work is becoming even more important than in the past, for the figurative "iron curtain" phrase coined by Winston Churchill has now become an actual physical barrier and there is almost no chance for contact along the border.

"During the last six months, we have probably told more people in the Soviet Union about the American way of life than during the entire period since the effort began 15 years ago," George V. Allen, USAID head, reports. "Already, the classic Marxist line about our economic system has undergone a change. Moscow now admits that the masses in America are well-fed, well-clothed and well-housed."

One of the biggest advances has been the halt in "jamming" of Voice of America radio broadcasts, permitting official U. S. broadcasts to enter Russia without interference for the first time in ten years. About 3,000,000 Russians visited the U. S. exhibit in Moscow last summer, and nearly 1000 Soviet citizens visited America in the past year, adding to the wholesome effect of the broadcasts.

Aside from the embassies and consulates, the USAID is the chief American representative in cities throughout the world, and it works unceasingly to present a fair picture of America, thus aiding in maintaining friendly relations. Its main goal has been to convince people everywhere that "the American government and people are democratic and peace-minded, yet resolute to defend their freedom and to oppose aggression."

## Bomb Hoax Is Serious Offense That Warrants Arrest And Prosecution

Fake bomb warnings are not a joke or prank, but a serious offense. Like the boy who said "Walt!" once too often and then was deposed, such calls can backfire on the caller and also could have tragic consequences if they lead responsible officials to become injured to all apparently unfounded reports.

With school authorities providing the lead and the police following it up, a bomb threat at Coolidge junior high school has ended in arrest for the caller. The arrest and plans for prosecution are good news, for this may deter others from a dangerous and foolish "stunt."

## Venice Continuing Drive To Eliminate Unused Iceboxes Dangerous To Children

The concern in Venice is understandable after finding of another abandoned icebox with doors still attached. Several years ago, two children climbed inside such an icebox, found themselves trapped when the door swung shut and suffocated due to the air-tight construction.

Such occurrences have been reported in many sections of this country. But a tragedy has struck here, and must not be allowed to happen again. Anyone aware of an icebox hazard should take it upon himself to report the police; they will see to it that the doors are removed.

## Two Traffic Charges

Charges of running a stop sign at Nimeski and Johnson roads and speeding 60 miles an hour in a 30-mph zone at 25th street and Madison avenue were placed against Charles Floyd Richards, 21, of St. Louis, who was arrested early Sunday morning by Granite City police.

## Charges Filed Against Pair Arrested At Tavern

Answering a call to Jimmie's tavern, 20th street and Washington avenue, about 2 p.m. Friday, Granite City police took into custody George Biggs, 32, of 191 Russell street, and James DeCue, 24, of 2449 Missouri avenue.

A warrant charging the pair with assault, creating a disturbance and disorderly conduct, was filed by James Slavings, proprietor of the tavern. Biggs and DeCue were later freed on cash bonds to appear for hearings today.

# Mercers, Sacred Heart Win Inter-City Openers

## Stop East St. Louis Ball Teams As Pitching And Fielding Sparkle

The Southwestern Illinois Inter-City baseball season got underway on schedule for the first time in three years yesterday afternoon, and the Quad-Cities representatives in the league celebrated the occasion by sweeping to wins in the openers.

Local pitching sparkled as the Mercers shut out the new league entry State Savings and Loan of East St. Louis 7-0 at Wilson Park, and Sacred Heart dealt defending champion McAttee, Glass, also of East St. Louis, a 7-5 setback at Jones Park, East St. Louis.

Also getting the season off on the right foot was McAttee's Duick of Collinsville with an 8-5 win over Carpenter, Highland Park, with a 7-0 whitewash of the Troy Redbirds, and White City, which dropped a 17-2 blockbuster on Maryville.

DRIVING IN WINNING RUN in first game of Saturday's doubleheader was Granite City's Don Dillard.

Don Dillard, of the Granite City Press-Record, was the driving force in the first game of Saturday's doubleheader, leading the team to a 4-3 win over the Warriors.

### Page Sixteen in Relief

The Hearts, in making new Manager Lyman Tucker's debut successful, got six innings of top-notch relief pitching from Bob Page and knocked starter Toddy Gallus out of the box in three innings. Lou Fluke relieved for McAttee, worked four innings and was charged with the loss. Page, who took over after starter Pete Burge, was credited with the victory.

John Camargo, taking up where he left off late last season, scored the first run for the Hearts when he doubled to open the first frame and came around on an error. The Glasen took the lead with a pair in the bottom of the first, but Burge led off with a two-base knock in the third and scored on Ed Opleh's sacrifice fly. Sacred Heart made five hits good for three more runs in the fifth. Bob Burns had the big blow, a two-run double.

Camargo, who had three hits, including a pair of doubles, singled in the sixth and scored on Howard Ethernott's double to break a 5-5 tie, and the Hearts got an insurance run in the eighth when Wayne Fathes singled. Ethernott singled, Paul walked, and McAttee's third pitcher, Don Dillard, issued a pass to Catcher Clayton Harrison.

Page allowed only three hits in the six innings. Ethernott was 2-5 at the plate, as was Ken Cruse, mulling at shortstop for the injured Daniel Maxwell. Both clubs committed two errors.

Student For America's Andy Angloff spun a neat five-hit shutout and his Mercer team, mulling at shortstop with 12 safe blows and played errorless ball as the Miller-Dickie Portell and Don Dillard, issued a pass to Catcher Clayton Harrison.

Merced got things started when the starter, later, Tom Spickard, in the third when Angloff reached on a bunt and scored. When Graham Creighton was safe on another error, and Angloff came across when Graham Creighton was safe on another error, and Angloff came across when Graham Creighton was safe on another error.

### Madison Runs Second To Comanches In Triangular Track Meet Friday

Despite the fact that his thin-clads were beaten by better than 2-1 in their first outing Friday afternoon, Madison high school track coach Charles "Buddy" Griggs was not displeased as he led his team to a second place finish in the triangular track meet at the Comanche school. The Comanches, in fact, placed first in 13 of the 14 track and field events on the afternoon program. The performance by Earl Lee's athletes was highlighted by a triple win by Claude Gardner, who copped both dashes and the broad jump, the 100 in the good time of 10.2.

### Runners Minus Show

Ray Coleman ran second in the mile to Chakiah's Larry Hook, whose time of 5:07.7 was not bad, considering the stiff crosswind and the fact that Hook ran the last 1/4 mile minus his right shoe.

Madison came in second in three other events. Becker was runner-up in the pole vault, Griggs second in the broad jump and the MHS mile relay team, which had a bit of difficulty in baton transfer, got three points in the mile relay. Young and Walt Cooper were among six high jumpers tied for second.

Griggs and Young finished third and fourth in the 220 and Wally Weidner had a fourth place in the discus event. Norm Stawar placed fourth in the shot. Griggs' three firsts gave him individual point honors for the day with 15.

Times worthy of note were both turned in by Comanche relay teams, which clipped off the 880 in 1:40 flat and the mile in 3:47. Madison next takes to the cinderpaths tomorrow afternoon in the annual Roxana relays.

### FAREWELL

This is the last time that I'll be writing this column. As you probably know, I've been transferred to St. Louis. In case I didn't get to tell you good-bye in person, I'll do it now and say "thank you" for the many associations that have made my two years here so enjoyable.

### IMPROVING SERVICE IN THE QUAD-CITIES

Remember what the Red Queen said to Alice during her stay in Wonderland?

It went something like this: "You have to run fast to stay exactly where you are."

With a little manipulating, this can be applied to a business. It could mean that "telephone service is good now, but it must be constantly improved in order to stay good."

That's exactly what's happening, too. Telephone service is improving. Many improvements are behind the scenes - you'll never see them as you use your phone. But they are there, nevertheless. They're necessary, too, if we're to keep telephone service "as modern as today."

### IT'S SMART TO LOOK UP THE NUMBER

The "best way to learn and remember something is to look it up . . ." That's what a teacher told me years ago when I asked how to spell a word.

It was good advice then. It's good advice now. When you want to know a number, for instance, the best thing to do is look it up in the directory.

Incidentally, if you'd like a free Blue Book for keeping frequently-called numbers, just phone the telephone business office.

Call by number. It's twice as fast.

### Hair Specialists Here Thursday; Will Show How To Save Hair And Prevent Baldness

New home treatment methods for saving hair and improving its growth will be demonstrated in Granite City, Illinois on Thursday, April 28, 1960 only. Other cities listed below.

Consultant D. Hayes will be in charge, representing the dynamic Erickson Hair & Scalp Specialists organization. He will personally examine men and women from 11:30 a.m. to 7:30 p.m. Thursday at the Stevens Hotel, Phone TR. 6-9930.

### At the home office of the Erickson organization, a new, even more successful method of treatment

will be demonstrated. It is a method that you can easily administer yourself at home. This new treatment is neither "mail order" nor "cure-all." It is a method that is based on a personal examination and proper use of the Erickson treatment.

### Who Can Be Helped?

For many years now Erickson Hair & Scalp Specialists have been checking the hair of thousands of people across the country. They have encountered and dealt with hundreds of cases of every kind of hair trouble. This experience has grown the body of scientific knowledge that is the development of the new Erickson home treatment.

Will the new Erickson treatment cure baldness? "No!" For we cannot help men and women who are alopecia bald or women who have lost hair after years of gradual hair loss. But if you still have hair and your scalp is still creating hair, you can at least save and thicken what you have.

Some conditions, such as "spot baldness" usually have complete coverage if caught in time. Other conditions that usually bring on excessive hair loss, dandruff, itching, over-oxidation or degeneration, follicle changes with the hair becoming brittle, thin or brittle, or baldness can be corrected by the Erickson home treatment.

## Rams Nine Routed By Tigers, 20-2

Picking up only two hits, the Lincoln of Venice Rams were routed by Lincoln of East St. Louis Friday afternoon 20-2 on the winners' diamond.

The Venice Lincoln nine were never in the game as the Tigers scored two in the first inning, four in the second, five in the third and nine in the fourth. The game was called after the fifth inning because of the high school ten-run lead rule.

The Rams were held hitless until the top of the fifth when Earl Crawford singled to center and scored moments later when Ed Brewley singled. The other run came in the top of the fourth.

Stan Lynch's Rams were hurt by the absence of top hitters Thomas Hall and Robert Davis, who had been suspended from school for a week for disciplinary reasons.

Crawford pitched the whole game for Lincoln Venice and allowed 17 hits. In the first meeting of the two teams, April 12 in Venice, Crawford allowed only six hits as the Tigers won 7-5. Lincoln East St. Louis had seven extra-base hits, including two home runs.

**Baseball Games Reset**

Two local baseball games were postponed Thursday afternoon because of muddy diamonds. Granite City Coach Joe Fedora has rescheduled the home game with Alton for May 6 and Coolidge Coach John Tonoff has re-set the game at Collinsville for this Thursday.

## Mile Relay Decisive

### Warriors Win First Track Meet of Year Downing Edwardsville 61-56 1/2

By winning the last event, the mile relay, Granite City's track team routed Edwardsville here Friday 61-56 1/2. The Warriors' first victory of the season. The score had been tied at 56-1/2 all going into the event.

The first Warrior runner, Mike Vaislet, jumped off to a lead in the relay and each following runner, Ron Ruppel, Bob Summers and Fred Hacke, increased it as Granite City won the event easily by 100 yards. The time, 5:47.1, was not impressive, but the track was still slow after being damaged by the snow, moisture and truck ruts which were made in connection with work on the football field.

David Davis continued to improve for Granite City and was almost a one-man team as he scored 22 1/2 points. He took four firsts, a third and was a member of the winning 800 relay team.

He won the 220-yard dash with a time of 23.4, the 100 in 10.8, the 180 high hurdles in 21.5 and the high jump with a leap of 5-8.

Barrow White Shot Put Coach Jack Richardson won the shot put, a third and was a member of the winning 800 relay team. Leonard Barron in the shot put, Barron, who had been in prior meets, heaved it 45-4 Friday to win the event.

Edwardsville was hurt when two squad members, including Fresh-Record All-Conference football fullback Tony Penetion, failed to appear for the meet. Penetion was favorite in the high and broad jump where he registered leaps of 6 feet and 20 feet earlier in the year. Friday the high jump was won with a leap of 5-8 and the broad jump at 17-0.

## Warriors Win First Track Meet of Year Downing Edwardsville 61-56 1/2

The Warriors swept the 100-yard dash with Don Davis taking second and Lee Barclay third and the 400 when Hacke finished first with a time of 5:54, followed by Summers and Summers and Vaislet.

Don Davis was third in the 220 behind the winning Don Davis and Barclay. Ruppel and Hacke and Gagnell Roblin was third in the 800, which was won by Ed Burris of Edwardsville with a time of 2:12.1. Burris also won the mile in 4:56.7 and Dave Lapinski of Granite City was third.

Don Davis was third in the 180 high hurdles, which was won by Tom Fish of Edwardsville with a time of 21.3. Harry Thurau was third in the high jump. Barclay was second in the broad jump, won at 17-0, and John Grobowski took third in the pole vault. The winning leap was 11 feet.

The Warrior team of Don Davis, Barclay, Ruppel and Hacke won the 800 relay with a time of 1:39.5.

Granite City travels to Alton Friday to participate in the Conference Relays.

Various phases of model building also will be demonstrated by club members during the afternoon and evening. The public is invited to inspect the contest entries and displays. Conary said.

## KEEP POLITICS OUT OF THE COURT, MR. SCHUMAN?

Although my opponent Mr. Fred Schuman has not had the audacity to deny he is running with the full support and endorsement of the Levee Board, the photograph below should remove any doubt that even the most skeptical might have.

This sign, situated near 20th and Edwardsville Road, Granite City, advocating Mr. Schuman and Mrs. Homan's election was slapped right over the original sign which was erected by the "old levee board ticket" which although beaten in Granite City managed to survive through large pluralities in Brooklyn, Venice and E. St. Louis.

**Continuance Granted In Tax Injunction Suit**

Anthony W. Daly, defeated Democratic candidate for nomination to the office of state attorney, obtained a continuance Friday in the circuit court at Edwardsville of a hearing on his motion to dismiss his tax injunction suit.

Daly obtained court permission to include Madison county, the city of Alton, and the county clerk as additional parties defendant in this suit to enjoin collection of disputed taxes in the county.

The motion for dismissal had been filed prior to the April 12 primary election by State Atty. Dick H. Mudge Jr., successful candidate for the nomination.

During Friday's hearing, Circuit Judge Harold R. Clark heard brief objections from Anthony W. Daly's attorney, Bernard J. Clark, and Daly's rebuttal asserting that additional parties defendant may be admitted where allegation is made that they have an interest in the controversy. Daly's motion for continuance to file an amended complaint in his suit, which he said he would do by tomorrow.

Mudge had filed the dismissal petition for County Treasurer Dan W. McGee, and the other defendant, Alton City Treasurer M. O. Elliott also is to have an opportunity to file an answer.

Judge Clark also continued hearings on petitions of three individuals seeking to intervene in the case a co-plaintiffs with Daly — Edward D. Grohman, an East Alton attorney who is Republican candidate for state attorney; William N. Hale, president of the Granite City Civic League and Roger J. Elise of Wood River.

Daly filed his injunction suit against the county and Alton treasurers on March 24, and the motion for dismissal was filed March 31 by Mudge.

## Miss Sandra Nonn, Dale Cattoor Exchange Vows

Miss Sandra Kay Nonn, daughter of Mr. and Mrs. Edward Nonn, 2430 Sheridan avenue, and Dale Cattoor, son of Mr. and Mrs. Amiel Cattoor of Belleville, Mo., were united in marriage Saturday morning at ten o'clock at St. Joseph's Catholic Church, Fr. J. P. Jordan officiating at the double ring ceremony.

The bride was given in marriage by her father, who wore down the white-carpeted aisle. The bride wore a traditional wedding gown made of lace and fitted tulle. Applied lace formed a Peter Pan collar, with a transparent effect from the collar to the bust line. The entire bodice was of Chantilly lace extending down long sleeves. The skirt was of the softest tulle with an overskirt of lace covering all but the front of the skirt.

She wore an exquisite demure of hand-draped silk organza smartly trimmed with Alencon lace medallions and pearls to which was attached the pure white wedding corsage.

The bridemaids were Miss Judy Cattoor, a niece of the groom, and Miss Donna Rose Miller, a cousin of the bride, while Miss Mary Margaret Nonn, cousin of the bride, was maid of honor.

They were dressed identically in sleeveless sheaths of white tulle lace with detachable tulle overskirts. They wore matching emerald green crowns of hair braid in flower design. A small circular veil topped the crowns.

The bride carried a bouquet of white carnations centered with white roses, and the bridemaids carried pink carnation colonial bouquets and the maid of honor had a pink and white carter colonial bouquet.

The flower girl, Janet Cattoor, cousin of the groom, was given a full-length white nylon dress with a tight fitted bodice. A large green sash, matching the color of the bride's dress, was tied in a large bow in the back. The bouffant hair was worn over hoops. She wore a band of flowers as a headpiece and carried a basket of carnations as she walked up the aisle with the ring bearer, Raymond Miller, a cousin of the bride.

## 10 Quad-City YMCA Clubs Win State Honors Saturday

Nine Tri-Hi-Y clubs and one Hi-Y club from the local YMCA that a local boys' club was selected. None were selected as state honor clubs on the basis of their activities during the past year.

Honor club recognition is the highest award which any club affiliated with the YMCA program can receive. The announcement of such awards to clubs in Illinois was made in Springfield on Saturday at the closing session of the Youth and Government program by John R. Fisher, Illinois Area YMCA secretary.

A large delegation from the clubs at the local YMCA took part in the two-day legislative session at the state capitol on Friday and Saturday.

The Granite City YMCA also earned the distinction of having the greatest number of Tri-Hi-Y and Hi-Y clubs ever to win honor club awards in one year in Illinois. Last year six of the local organizations qualified for the awards.

Saturday's awards announcements also marked the first time Hi-Y club from the local YMCA that a local boys' club was selected. None were selected as state honor clubs on the basis of their activities during the past year.

In order to qualify as honor clubs, the YMCA organizations had to be nationally affiliated, participate in the district conference of YMCA clubs, officers' training and Youth and Government activities.

They also had to undertake two parent projects, two community projects, two self-government projects, two instructional projects, participate in the YMCA World Service program and hold installation and induction ceremonies.

The single Hi-Y club from the local YMCA listed as an honor club was the Granite Hi-Y group. Tri-Hi-Y clubs receiving honors were Alpha Todd, Benthos, C. X. ## Delegates Named For Convention On Retardation

New research developments in the training of mentally retarded children will be explored at the 8th annual state convention of the Illinois Council for Mentally Retarded Children Friday and Saturday at Mount Vernon.

Delegates from the Granite City Association for Aid to Retarded Children will attend the two-day round of workshops, conferences and speeches.

About 200 parents and friends of the retarded will take part in a program designed to bring them up to date on topics of interest to families, teachers and communities. Participants will include leaders in government, welfare, education and community service.

The Illinois Council will mark its 10th anniversary this year. It serves as the coordinating agency for 43 groups of parents in the state, and the parent group units operate special schools, vocational workshops and recreational welfare programs. There are an estimated 150,000 retarded children and adults in Illinois.

Local delegates who will attend are Mrs. Emma Retteke and Mrs. Louise Baker.

The Granite City group operates an activity center on Saturdays for young adults, and also promotes special education for approximately 50 children ranging in age from six to 15. This program started in 1953.

A two-week day camp program is sponsored by the organization during the summer for all exceptional children in the Community. The fourth Monday of the month at 7:30 p.m. is the regular meeting time at St. John United Church of Christ. It is an open meeting, and interested persons may attend.

Present officers are Mrs. Helen M. DeFuntis, president; William Kraus, secretary; and Mrs. Hazel Kynlon, treasurer.

Workshops at the convention will include the following topics: training the retarded at home; operation of parent-sponsored classes, public and private institutions, community services, financing the program, and organization and membership.

Convention business sessions, including a conference on legislation, will be conducted by Harold V. Bostock of Chicago, president, and the keynote speaker will be Dr. Samuel A. Kirk, director of the Institute for Research on Exceptional Children at the University of Illinois. Set up in 1952, the institute works to improve through research the effectiveness of training for exceptional children.

Also speaking will be Dr. Robert L. Lam, assistant professor of clinical psychology at Washington University, an authority on accelerating the development of retarded children. His topic will be "Understanding Mental Retardation."

## Registration of Voters To Halt Again On May 7

Registration of voters and accepting of change of address and name affidavits has been resumed by the county clerk's office, Miss Eulalia Hotz has announced.

She said the full-time deputy registrars have had supplies since April 14 as provided by statute. However, due to the judicial election of June 6, registration of voters must cease May 7 until two days after the election.

Since there is no contest for the office of supreme court judge, and there will be only one judging precinct in Madison county, interest will be light and there will be little need for special registration centers, Miss Hotz believes.

She emphasized again that persons holding certificates of voters' registration (pink card) with an expiration date of July 31, 1960, will automatically receive a new card from the county clerk's office on that date. No action on the part of the voter is required as long as the address on the pink card is correct.

Changes of address may be noted on the reverse side of the pink card and mailed directly to the county clerk in Edwardsville prior to May 7.

Absentee ballots for persons in the armed forces will be ready today. Any one home from the service on leave may vote at the county clerk's office any day that the office is open, namely Monday through Friday, 9 a.m. to 5 p.m., until June 3. Civilians may receive absentee ballots by mail from May 7 to June 1.

Madison county is in the 2nd Supreme Court District, and Judge Harry E. Hershey, only candidate on the ballot, seeks re-election. He is a resident of Taylorville.

Few people realize how much mothers influence our nation's future. Our instincts are changing to more tolerance, and greater belief in the "Golden Rule." These qualities we learn from our mothers.

But, mothers are also greatly responsible for the improved health of our nation. They follow their physician's advice, so they can have stronger, healthier babies. With loving care, mothers make certain babies get the important vitamins and special baby diet their doctors suggest. We can help by supplying these aids to baby's better health.

# Warrior Win Stalled At 10 By Staunton 2-0; GC Meets Wood River Today

Granite City's undefeated string was halted at 10 Saturday in the second game of a doubleheader here with Staunton. The Warriors lost 2-0 after winning in thrilling fashion 4-3 on Don Dillard's clutch single in the last of the seventh inning.

Granite City will attempt to get back on the winning road at Wood River at 4 p.m. today. The Warriors enter the game with a 2-0 record in the Southwestern Conference.

Joe Fedora's nine could get only four hits in Saturday's loss, being weakened by the absence of hitting stars such as Williams and Bob Price who were in Houston, Tex., looking over a basketball scholarship offer by Rice Institute.

"Since it wasn't a conference game, I didn't mind that they made the trip," Fedora said. "I can't every day a couple of kids get an all-expense-paid trip to Texas and anyway, it gave me a chance to see what a few other players could do."

Larry Deist not only held the Warriors scoreless but also drove in the winning runs for his team in the top of the third inning on a single with two men on base.

Granite City threatened in both the fifth and sixth when Deist became wild. Dave Sparks,

Harry Smith and Jerry Wallace each walked in the fifth but failed to score.

In the last inning Vic Buehler also gained free passage and moved to second on John Rains' single. Larry Diak, who had two of the Warriors' hits, tried to bunt but forced Buehler at third. Then, after a strikeout, Dillard was thrown out at first.

Dillard was the star of the first contest with three hits, including the one driving in the winning run. With the score tied 3-3 and two outs in the last of the seventh, Diak singled to center, Bob Hoffman walked and Diak came in with the winning hit as Dillard singled to right field.

Ken Cook had a triple and Harry Smith a double. Dave DuMoulin pitched and allowed six hits before being replaced by Rains. Hoffman's record for the year is 4-1.

"I would rather lose this one than any in the conference," Fedora said. "Actually, we had a good day defensively. Staunton played a tremendous game at first with several reaching out catches. They were good in the first game and in the second."

## Dick And Edith's, Green Hall, Jolly Mill, Sportsman, Briggs Post Wins

Dick and Edith's, Green Hall, Jolly Mill, Sportsman Club and Briggs Tavern grabbed the top of the week in the Tri-City Tavern Softball League yesterday morning on five diamonds in the Quad-Cities.

Bill Diak had a perfect 4-0 day as Dick and Edith's felled the Home of the Blues 13-2. Teammates Bob Morris (3-4), Fitcher Oren Harrison (2-4) and John Konovick and Andy Angelloff (each 2-3) added to the winning attack. Tom Austin had two hits and Buckley Starnes three for the Home of the Blues, and Joe Buzar was the losing pitcher.

Green Hall staged a long ball attack in defeating Bookies 10-9 in a two-inning affair. Joe Skowron, Bill Page and Rich Bauer each homered for the winners. Skowron getting two round-trippers, Page and George Amish also had triples. Cavel Hinkle singled twice and Frank Spohr went 3-4. Sonny Richardson garnered four hits for the losers, while Ken Ross and Benny Menden added doubles. Ross had three safe blows and Bob Schofield two. Jolly Mill squeaked past Mary's Place 7-6, despite a double play triple by the losers Frank Scarsdale and a double by Bob Riley. Sonny Halbert went 3-4 with two out of four.

Joe Viviano homered as the Sportsman Club hung on for a 1-0 victory over the Jolly Mill. Jim Goodrich had four safeties and Ralph Moore had two. Nelson Hagauer had a pinch-hit double for the winners. Ted Sals and Bill Seigler each collected two hits for Club Delmar, and Don Krawich added a triple.

In the only upset of the morning, Briggs Tavern surprised Polish Hall 5-2. Norm Rogovick closed a home run for the winners, with Pitcher Sonny Miloski picking up the victory. All hit singles, except for Briggs, gathered seven hits, and Polish Hall six.

She was traveling from Malvern, Ark., to Buffalo and had just transferred from a Missouri Pacific to a New York Central Railroad train at St. Louis.

A boy and girl, both five or six, were traveling with her. Forrest Green, were traveling with the woman, according to the police. The woman was turned over to Madison Police James Morgan for arrangements for their return home.

An inquest will be scheduled by Pieper.
